2026 Resume

Application for Director of Educational Training Programs

I believe you will find David DePatie has a passion for teaching and online class development and will be a natural fit for the position of Associate Director of the Educational Training Programs.

As a college Lead Instructor for Microsoft and CompTIA certification programs for thirteen years, a corporate trainer for three years and has a deep background in internet technologies for over twenty years; as well as interfacing with a variety of learning management systems. I believe that I will be an excellent team member with.

I have developed many courses at Santa Fe Community College and the University of Florida since 1996. I have worked with administrators, teachers and students on development and continual updating of materials and curriculum. I have used feedback from faculty and students to work on continued improvements. I have researched several tools to ensure content meets or exceeds online pedagogy.

I have worked on many classes that have hands on components, and have created both video and hands on experiments. I have delivered and assisted in the delivery of these classes. I have taught for six years in the county school system in industrial art and technology. I have also taught for thirteen years in community college internet technologies program consisting of Microsoft, Cisco and ComTIA certification programs. I have brought many new concepts to these classes through attending workshops and conferences over the years to enhance our curriculum.

I have worked with many faculty to develop plan and implement strategies to make sure goals were met through curriculum performance evaluations and completion of certifications.

I have lead many teach-back sessions to share ideas and ways of improving classes by understanding technologies and sharing learned knowledge.

I continue to research best practices and to ensure a quality product in the classroom and online. I continue to research and work in team collaborations to be on the leading edge of successful technology implementations.

I believe that the faculty and staff I have worked with will agree that I give more than 100% and will be very helpful in the continuation of moving the University of Florida forward to an even higher place of prominence in the teaching and education of the Gator Nation.

David L. Depatie
University of Florida

David DePatie started a career in informational technology in 1975 learning FORTRAN and COBOL. Educated at St. Leo University in business administration, he ran his own small engine motorcycle shop for eleven years. He continued his education becoming certified in CompTIA, A+, Network + and Microsoft Certified Solutions Associate. He then joined the instructional team at Santa Fe Community College as Microsoft Lead Instructor and taught the entire Instructional Technology curriculum including Security + and Cisco Certified Network Associate program. During his time at Santa Fe, David designed an entirely new curriculum to teach the students how to build and service commuters from scratch. After seventeen years he moved on to become a corporate trainer at Toyota. Then landed at the University of Florida in 2010 and has become an Instructional designer, Web Smith in the Food and Resource Economics Department.

He currently assists instructors creating materials and classes for both in class as well as online. During his time at UF, he continues his education. Currently working on master's level courses. In 2014, David won an award for best on-line class.

Cisco Networking Academy Program

Semesters 1 through 4

David DePatie

In a timed and monitored environment, administered by the undersigned instructor, the student demonstrated the following competencies in a TCP/IP based network using Ethernet LAN media:

- Built and tested a Category 5 UTP straight-through patch cable using the 568B pin-outs and console cable using rollover pin-outs
- Understood an IP addressing and subnet masking scheme for a Class B network with multiple subnetworks and properly applies this scheme to all router interfaces (Telnet) lines
- Configured routers for login and enabled passwords for console and VTY (Telnet) lines
- Physically connected Layer 1 and 2 devices to router Ethernet interfaces
- Configured router Ethernet interfaces for IP implementation
- Configured a workstation for TCP/IP communications and physically connected the workstation to an Ethernet router interface showing full connectivity to the router interface
- Physically connected router serial interfaces in a back-to-back lab configuration using a DCE/DTE cable combination
- Configured router serial interfaces, using PPP encapsulation
- Configured routers to route IP traffic using the IGRP distance vector routing protocol
- Designed and applied IP Access Control Lists for network security
- Monitored and troubleshoot network traffic using ping, Telnet, trace route, CDP neighbors and debug commands
- Troubleshoot router configuration and physical connectivity problems, including password recovery

Mr. David DePatie
Kanapaha Middle School
Gainesville, Florida 32608

Dear David,

We are hoping your summer was a relaxing and enjoyable one. We have been working hard to get ready for our first school year in our new facilities. Your "tentative" teaching assignment for the 1996-97 school is:

6th Wheel, 7th & 8th Technology

Keep your calendar open for Thursday August 15, for the 1st Annual Faculty Social at the Joyner's. We will provide the refreshments, and everyone is asked to bring a 'snack'.

All of us are looking forward to an exciting school year. We will have coffee and juice in the Media Center at 8:00 AM, and the PTA is sponsoring a luncheon for us at 11:30 AM in the cafeteria.

See ya' on the 12th.

Sincerely,

Mike Joyner
Principal

Dear Mr. DePatie:

Thank you for continuing to serve on the Networking Advisory Committee at Santa Fe Community College. The Board of Trustees recently confirmed your reappointment for an additional two-year term (July 2001 through June 2003) and joins us in expressing our appreciation for your service to the college.

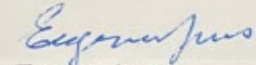

We recognize that input from community leaders and area employers helps keep our vocational program curriculum current and relevant. Your assistance in this capacity is invaluable.

Please feel free to contact us with any suggestions or concerns you may have about the program or other programs we offer at the college.

Again, thank you for your continued assistance in providing excellent vocational education to our community.
